

Adapter centred (y 36.9-96.9), CF column beside J2, ROM at the top edge

x (mm from the bus-connector edge) -> JP1 end (y = 0)

- 2026-09-24 23:30

Heights are typical figures, not measured: box header 9, IDC plug on it +9 (~18), plug body ~1.5 wider than the shroud each side, socketed DIP 8.5-9.5, adapter 1.6 thick, CF holder + card ~6-8 on the adapter.
